Quotations on the Leading Products In Demand

Boston, Oct. 11 .- The butter market nolds fairly steady, with very little change in prices from week to week. Northern creamery, 22%@23c; western, 2262234c; dalry, 19421c.

Cheese is rather quiet, and prices are s tride lower for the week. York state, 11 3-4@12 1-4c; Vermont twins, 114@12c.

There is a good demand for eggs, and though receipts are liberal, all choice fresh lots are quickly moved at full prices. Choice nearby, 32633c; eastern, 26@28c; western, 22@23c.

Business has been rather quiet in the local fruit and vegetable market. Prices as a whole are not much changed.

There has been a good movement of fancy apples; the receipts, however, have included a good many lots of common fruit, for which there has been but little demand. Choice eating apples have brought good prices, but receivers have been forced to let the common sorts go cheaply.

Cranberries are firm, particularly choice dark lots. Plums are little changed, though California stock is selling a little higher in consequence of smaller receipts incident to the ending of the senson. Peaches are not coming along so freely as they were,

Potatoes have continued to advance, but there have been few other important changes in the prices of vegetables. Sweet potatoes are easy under large supplies. Cucumbers are still scarce and high. Onlons are firm and tomatoes have moved up rather sharply Cabbages and beans are steady. Green corn is in limited supply and higher. Squashes are a shade easier White turnips have dropped a little.
